

National Environmental Education Week

A National Environmental Education Foundation Program

April 2008

www.EEWeek.org

Our Program

National Environmental Education (EE) Week, made possible by [Canon, USA](#), is the single largest organized environmental education event in the United States. It increases the educational impact of Earth Day by creating a full week of environmentally-themed lessons and activities in K-12 classrooms, nature centers, zoos, museums, and aquariums.

Greetings!

National Environmental Education Week is less than a week away, and we are proud to announce that nearly 1,600 schools, nature centers, parks, zoos, museums, and aquariums are registered EE Week participants--thank you for your support!

Help us reach our goal of 2,000 partners by forwarding a special EE Week Invitation to your friends and colleagues.

EE Week 2008: Curbing Carbon Footprints

In honor of EE Week's Carbon Footprints theme, the Earth Day Network has developed a special series of **high school lesson plans** on the following climate-related topics: [Biodiversity and Climate](#); [Invasive Species and Climate](#); [Food, Water and Climate](#); [Equity and Climate](#); and [Green Building and Climate](#).

Don't forget that in celebration of the Carbon Footprints theme, EE Week will also launch an online student Carbon Calculator. Stay tuned for details!

Nature Center Map

In partnership with the National Association for Interpretation, EE Week is proud to announce the launch of its online Nature Center Map. Built with the data of over 2,000 nature and environmental education centers nationwide, the map allows educators and other interested individuals to enter their zip code and find the nature centers near them.

[Access the Map](#)

Remember to document your EE Week activities for the EE Week Photo Blog, which will be launched during EE Week. Educators will be invited to share their success stories and photos of their own environmental education efforts on the blog, and will be eligible for prizes such as digital cameras, camcorders, and photo printers.

There is still time to register for EE Week! Registration is free at

www.EEWeek.org/register.htm

Sincerely,

Karen Schultz
National Environmental Education Week Coordinator

At the National Environmental Education Foundation, we provide objective environmental information to help Americans live better every day. At a time of conflicting and challenging messages about the state of our environment, we provide trusted knowledge, resources and opportunities to improve our lives and the health of the planet.
